- ZettaGrid Indonesia is 100% Indonesia owned

**2010** commenced operations in Australia  
**2017** commenced operations in Indonesia  
**4000+** VM Workloads  
**2.5PB+** Storage  
**4** Availability Zones in Australia  
**2** Availability Zones in Indonesia  
**6** Peering Interconnect Partners  
**50+** Staff - 12 Developers  
**62** Net Promoter Score  
**140+** Channel Partners

[FIND MORE](#)

### Virtual Datacenter

Build and manage groups of virtual servers whilst avoiding the complexity of networking and security.

### Business Solution

Our channel partners can help you deliver cloud innovative customer solutions.

### Cloud Backup

Securely store physical or VM backups to the cloud via Veeam Cloud Connect.

### Disaster Recovery

Disaster Recovery Solution protect your business continuity to the cloud.

## What We Do

Zetta**grid** provides a fully flexible cloud experience, with predictable billing and partners network to deliver the integrated cloud experience you have been seeking.

### Industrial Sector

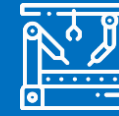

Food & Beverage

Automotive

Textile & Apparel

Electronics

Chemical

### Zettagrid Cloud Partner Ecosystem

IoT  
Platforms

3D Printing  
Services

Big Data  
Analytics

Smart  
Sensors

Cyber  
Security

Autonomous  
Robotics

Augmented  
Reality

ERP  
System

### Cloud Infrastructure as the Basis of Digital Industry

Virtual Datacenter  
(Server, Network)

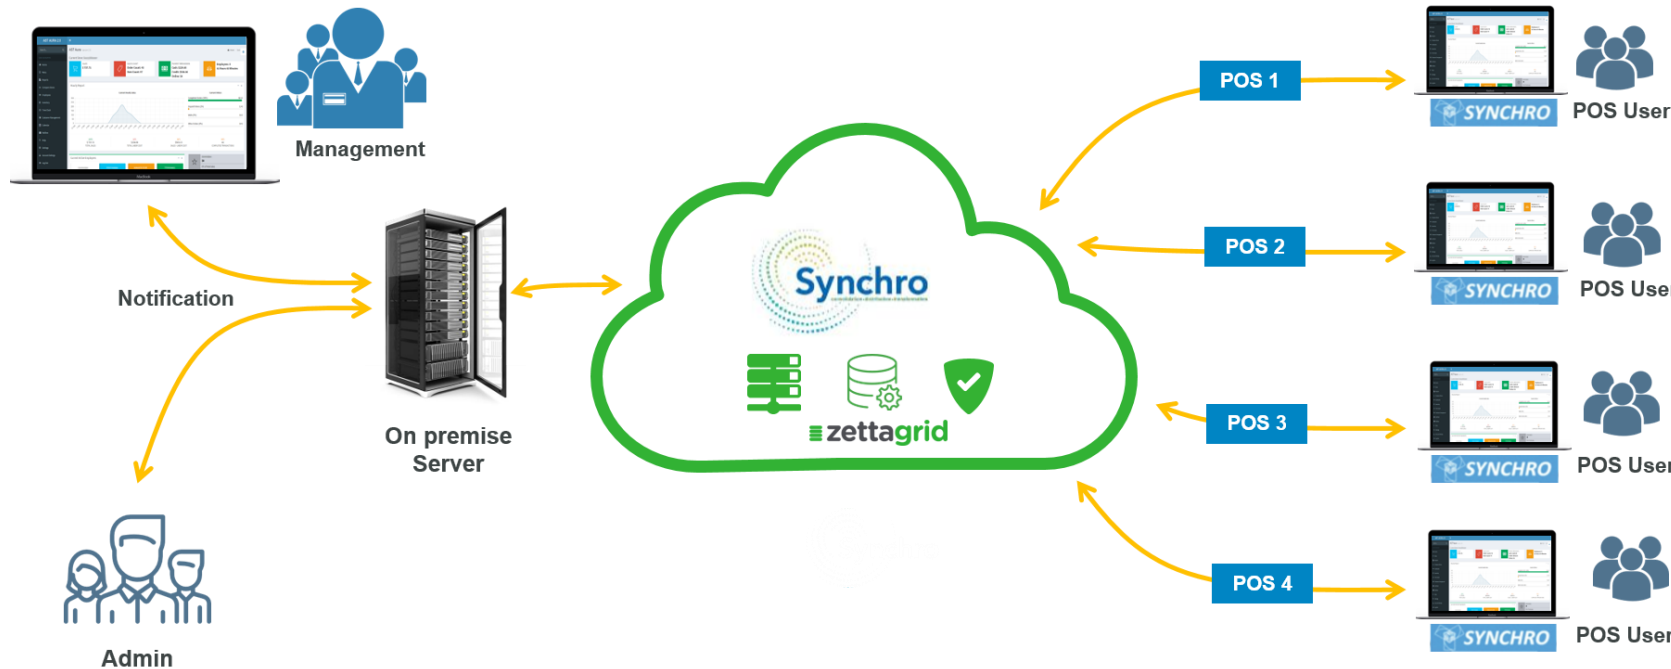

Cloud Backup  
(Offsite Storage)

Cloud Disaster Recovery  
(Business Continuity)

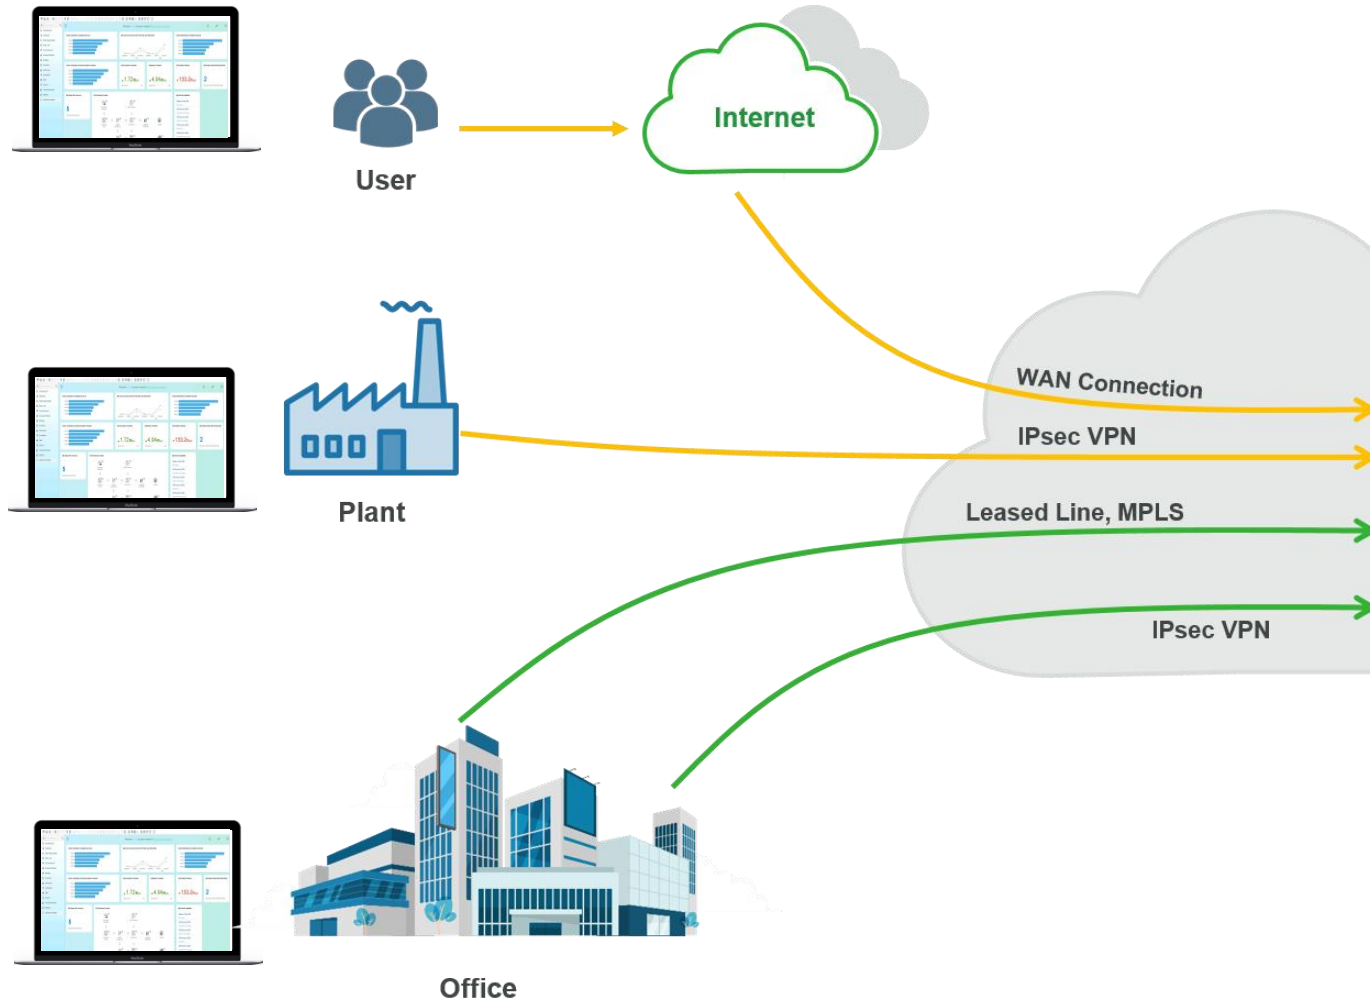

Application Licensing  
(Extensive Application)

## Benefits of Cloud Data Synchronization Platform

- POS is able to do transaction Offline
- Auto-synchronization based on connection availability
- Synchronize Pricelist, Promotion package, New Items, Software Updates
- Transfer Stock/Item between Outlets
- Daily Transaction and Inventory level monitoring (hourly, daily, weekly)
- Near real-time notification of branches, machines, POS maintenance and failure events

CLOUD ERP									
Makanan dan Minuman	Otomotif	Bahan Kimia	Elektronik	Textile					
Financials	General Ledger	Tax	Banking	Cost Accounting	Product Costing				
Customer Relationship Management	Activities Management	Opportunity Management	Service Management	Calendar					
Logistics	Sales	Procurement	Data Collection	Warehouse Management	Inventory Management				
Product Management	Product Master Data	Batch & Serial Data	Bills of Materials	Routings
